#### INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Village Alderpersons Village of Pleak, Texas

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, and each major fund of the Village of Pleak, Texas (the "Village"), as of and for the year ended April 30, 2020, which collectively comprise the Village's basic financial statements as listed in the index to the financial statements. These financial statements are the responsibility of the Village's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, and each major fund of the Village as of April 30, 2020, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages 2 through 4 and 14, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 14,2020, on our consideration of the Village's internal control over financial reporting and on our test of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the Village's basic financial statements. The accompanying Other Supplementary Information listed in the index to the financial statements is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Village. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Styhum, Lalland Plea

Wharton, Texas October 14,2020

1

The discussion and analysis of the Village of Pleak's (the "Village") financial performance provides an overview of the Village's financial activities for the year ended April 30, 2020. The intent of this discussion and analysis is to look at the Village's financial performance as a whole; readers should also review the basic financial statements to enhance their understanding of the Village's performance. The Village has 1 component unit, the Pleak Volunteer Fire Department.

## **Overview of the Financial Statements**

This annual financial report of the Village consists of the following parts: Management's Discussion and Analysis, Basic Financial Statements, Required Supplementary Information and Other Supplementary Information. The financial statements include notes that explain in detail some of the information included in the basic financial statements.

### **Government-Wide Financial Analysis**

The Statements of Net Assets and the Statements of Revenues, Expenses and Changes in Net Assets provide an indication of the Village's financial condition. The Village's net assets reflect the difference between assets and liabilities. The Statements of Revenues, Expenses and Change in Net Assets identify the various revenue and expense items that affect the change in net assets.

A summary of the Village's Statements of Net Assets is presented below.

|                               | Governmental |           |    |           | Component |           | Memo Only |  |

## **Financial Analysis of Government Funds**

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful is assessing the Village's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the government's net resources available for spending at the end of the fiscal year.

As of the end of fiscal 2020, the Village's governmental funds, consisting only of the General Fund, reported an ending fund balance of \$903.649, an increase of \$175,441 in comparison with the prior year. The entire fund balance is unreserved and is available for spending, subject to regulatory, statutory and budgetary restrictions.

The fund balance of the Village's General Fund increased \$1575,441 during the current fiscal year. Key factors in the increase include growth in revenues from sales tax revenue, revenue from Fort Bend County ESD#6, as well as reduced general costs.

# Analysis of Changes in Capital Assets and Long-Term Debt

## **Capital Assets**

As of April 30, 2020, the Village had total capital assets, net of accumulated depreciation of \$284,500. This investment in capital assets includes land, buildings, infrastructure, furniture and fixtures, and fire trucks and other fire equipment. Additional information of the Village's capital assets can be found in Note 6 of this report.

## **Long-Term Debt**

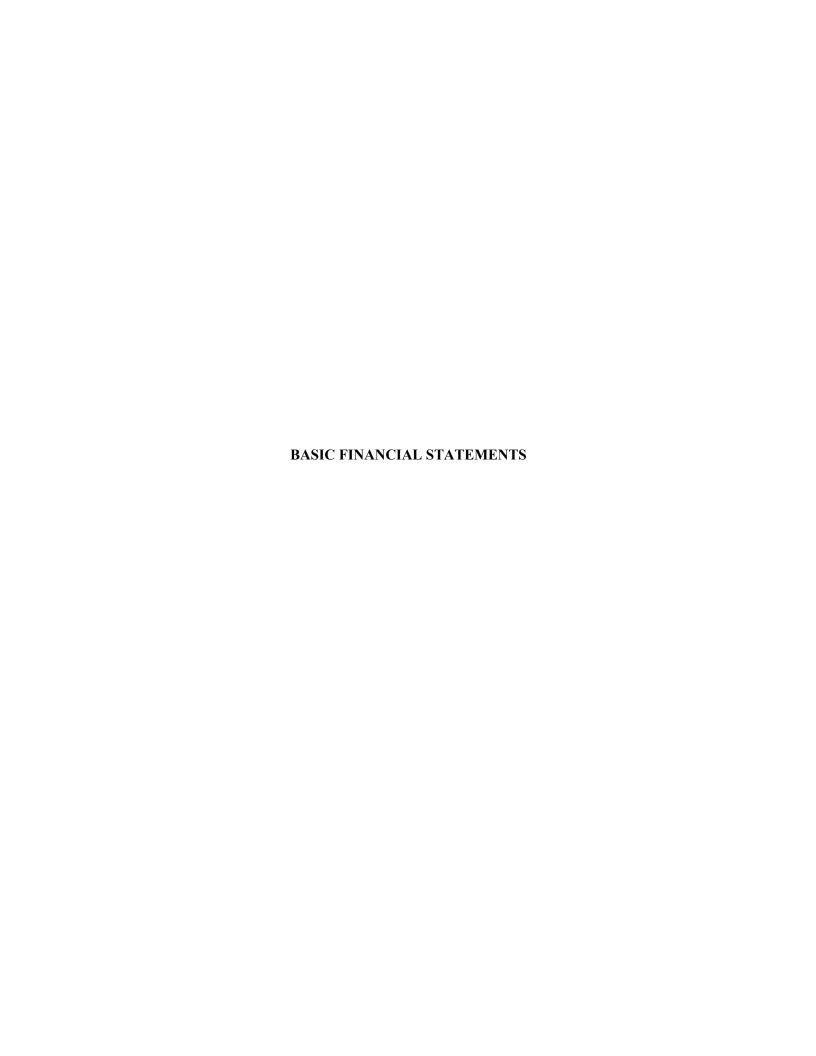

At April 30, 2020, the Village had a note agreement with a financial institution for the purchase of a fire truck. At April 30, 2020, the Village owed \$81,558 under the note agreement.

#### **Economic Factors and Next Year's Budget and Rates**

The Village Alderpersons have adopted the Village's 2021 budget. The approval of the budget provides funding for the Village's operating and capital costs for the 2021 fiscal year. The Village expects revenues from all sources to remain consistent with the 2020 fiscal year and expects a positive growth in net assets during 2021. The Village's component unit has also adopted its 2021 budget and the component unit expects revenues from all sources to remain consistent with the 2020 fiscal year and expects a positive growth in net assets in 2021.

#### Additional Financial Information

This financial report is designed to present users with a general overview of the Village's financial operations and financial condition and to demonstrate the Village's accountability. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the Village of Pleak, 6621 FM 2218 South, Richmond, Texas 77469.

# 1. Summary of Significant Accounting Policies

#### Introduction

The Village of Pleak, Texas (the "Village") was founded in 1894 and was incorporated by Texas law in 1979. The Village elects its mayor and five alderpersons at large. The mayor presides at the council meetings. All powers of the Village are vested in the council.

The financial statements of the Village are prepared in accordance with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. In June 1999, the GASB unanimously approved Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. The Village implemented the provisions of Statement No. 34 in the 2005 fiscal year.

# **Reporting Entity**

In evaluating how to define the Village for reporting purposes, management has considered all potential component units. The decision to exclude all potential component units from the reporting entity was made by applying the criteria set forth in GAAP. The Village is not included in any other governmental "reporting entity as defined by GASB. The accompanying financial statements present the Village's primary government and its component unit, Pleak Volunteer Fire Department, which the Village exercises significant influence and legal authority. Significant influence or accountability is based primarily on operational or financial relationships with the Village. Legal authority is derived from the ordinance creating the component unit in 1993.

#### **Basic Financial Statements**

Basic financial statements are presented at both the government-wide and fund financial level. Both levels of statements categorize primary activities as either governmental or business-type.

Government-wide financial statements report information about the reporting unit as a whole. For the most part, the effect of interfund activity has been removed from these statements. These statements focus on the sustainability of the Village as an entity and the change in aggregate financial position resulting from the activities of the year. These aggregated statements consist of the Statement of Net Assets and the Statement of Activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or business-type activity are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or business-type activity. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from services or privileges provided by a given function or business-type activity. Other items not reported as program revenues are reported instead as general revenues.

Fund financial statements report information at the individual fund level. Each fund is considered to be a separate accounting entity. The Village reports governmental type funds.

## Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. A one-year availability period is used for revenue recognition. Expenditures are recorded when the related fund liability is incurred.

The Village reports deferred revenue on its governmental fund balance sheet. Deferred revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition on the current period. In subsequent periods, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.

The Village reports the following funds:

# Governmental Fund Types

Governmental funds use the current financial resources measurement focus. Only current assets and current liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available resources during a given period. Governmental fund types include the following:

General Fund – is used to account for resources used in general operations. This is a budgeted fund and any fund balances are considered resources available for current operations. All revenues and expenditures not required to be accounted for in other funds are accounted for in this fund.

## **Budget policy and practice**

The Mayor submits an annual budget to the Village Alderpersons in accordance with the Village's Charter and the Texas Municipal Budget Act. In April, the Alderpersons and the Mayor adopt an annual fiscal year appropriated budget for the general fund. Once approved, the Alderpersons and the Mayor may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations.

#### **Budgetary control**

The general fund appropriated budget is prepared on a detailed line item basis. Revenues are budgeted by source. Expenditures are budgeted by departments. This constitutes the legal level of control. Expenditures may not exceed appropriations and beginning fund balances. Budget revisions at this level are subject to final review by the Alderpersons. Within these above control levels, the mayor may transfer appropriations without Alderperson approval.

## **Budget basis of accounting**

The budget for the general fund is prepared on a basis consistent with accounting principles generally accepted in the United States of America. Any unencumbered appropriations for annually budgeted funds lapse at fiscal year-end.

#### Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year. The Village did not have any outstanding encumbrances at April 30, 2020.

## **Component unit**

The component unit of the Village is the Pleak Volunteer Fire Department (PVFD). This component unit prepares annual financial statements as of April 30 of each year. A copy of the component unit reports may be obtained from the Village. PVFD reports as a general government type of entity.

#### Cash and investments

The Village maintains one cash operating account and one savings account. Investments consist of amounts invested in TexPool reported at cost, which approximates fair value.

## Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, drainage systems, sidewalks, and similar items), are reported in the applicable governmental columns in the government-wide statement of net assets. The Village defines capital assets as assets with initial, individual costs of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Property, plant and equipment of the Village is depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements

Furniture, fixtures and equipment
Infrastructure

Fire truck and other fire equipment

40 years
5 - 10 years
50 years
5 - 10 years

## Compensated absences and retirement plan

There are no compensated absences for any employee of the Village or its component unit and the Village or its component unit does not participate in any retirement plan for its employees.

#### 2. Deposits and Investments

It is the Village's policy for deposits and investments to be 100% secured by collateral valued at market or par, whichever is lower, less the amount of the Federal Deposit Insurance Corporation insurance. The Village's deposits and investments are categorized to give an indication of the level of risk assumed by the Village at fiscal year-end. The categories are described as follows:

- Category 1- Insured or collateralized with securities held by the Village or by it agent in the Village's name.
- Category 2- Collateralized with securities held by the pledging financial institution trust department or agent in the Village's name.

Category 3- Uncollaterlized

The Village and component unit are classified as Category 1, with deposits and investments secured by the Federal Deposit Insurance Corporation insurance at April 30, 2020.

#### 3. Sales Taxes

The Village receives its allocation of sales tax receipts for its incorporated boundaries monthly from the State of Texas. During the year ended April 30, 2020, the Village earned \$160,726 from sales tax collections.

## 4. Franchise Taxes

The Village has entered into agreements with certain utilities companies to pay a franchise fee in-lieu of a sales tax. Revenues earned under these agreements for the year ended April 30, 2020 are as follows:

|                     | A  | mount  |
|---------------------|----|--------|
| Centerpoint Energy  | \$ | 37,315 |
| Telephone companies |    | 3,444  |
| Total               | \$ | 40,759 |

# 5. Fort Bend County, Texas Assistance Revenues

The Village component unit, PVFD, has entered into an agreement with Fort Bend County ESD#6 to provide fire-fighting services to rural areas for a fee. For the year ended April 30, 2020, PVFD earned \$255,000 from Fort Bend County ESD#6.

# 6. Property and Equipment

# Independent Auditor's Report on Compliance and on Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed In Accordance with Government Auditing Standards

Honorable Mayor and Village Alderpersons Village of Pleak, Texas

We have audited the financial statements of the Village of Pleak, Texas (the "Village") as of and for the year ended April 30, 2020 and have issued our report thereon dated October 14, 2020. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Compliance

As part of obtaining reasonable assurance about whether the Village of Pleak, Texas' general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards* 

#### **Internal Control over Financial Reporting**

Styling, ha land of Phil, PLIC

In planning and performing our audit, we considered the Village of Pleak, Texas' internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We also noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Village Alderpersons, management, others within the Village and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Wharton, Texas October 14, 2020
