May 22, 2026

Dear Village of Pleak Residents,

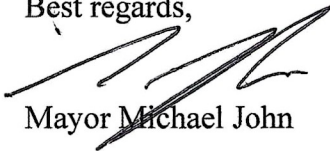

My commitment to transparency remains steadfast, and I have and will continue to be open with our residents, which is why I am writing this letter today.

The Village of Pleak recently received a letter from the Texas Attorney General regarding a new law requiring municipalities to complete and file financial audits within a short time period: 180 days from the end of the fiscal year. During FY 2025, we experienced unforeseen circumstances with our prior auditor, and we were forced to find a new auditor. As you can imagine the process takes time, and the new auditor had to get up to speed fast. The audit for FY 2025 was completed, but unfortunately, it was not within the time frame required by the new law. This delay was unavoidable, yet we worked hard to ensure that the audit was completed as quickly as possible under the circumstances.

The Village is now fully up to date with our audit which can be found on our website: <https://villageofpleak.com/wp-content/uploads/2026/05/Financial-Statements-Approved-5-20-2026.pdf>.

We have also worked hard to ensure that future audits will be completed in a timely manner. I am committed to continuing to provide full information about the city to the public and welcome your questions and involvement at City Council meetings, which typically occur on the third Wednesday of the month at 7:00 p.m. at City Hall.

Best regards,

Mayor Michael John
